## PERSOFARM Medication dispensers

*Each dispenser can be personalised with patient and medication data. Dispensers can be closed with a sliding transparent lid: this keeps contents safe and allows seeing patient, drug and prescription data.*

**PERSOFARM** is a comprehensive system with a large variety of elements that allows an advanced preparation of the therapy on a weekly or 24 hours base, according to the ward's needs.

**PERSOFARM** allows to:

- eliminate a large part of cases that can lead to medication errors (i.e. wrong medication, wrong quantity, wrong patient or wrong administration time)
- reduce time dedicated to medication distribution
- optimise energy and time used by nursing personnel
- reduce the risk of infections
- have a positive psychological effect on patients

Dispensers enable the:

- fractionating of therapy on 4 distribution times
- hygienic protection of medications
- access to medications according to the administration times

**PD1**  
complete with PCO lid

**PD4**  
complete with PCO4 lid

**PD5**  
complete with PCO lid

**PDN**  
complete with PCO lid and PIN insert

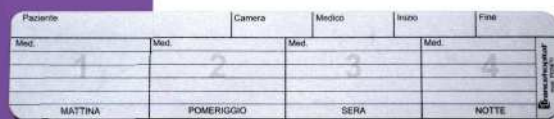

**PD3**  
complete with PCO3 lid

## Medication dispensers

VSPD-x

### Accessories for dispensers

#### PBLN

prescription block for PDN dispenser

- It collects all therapy information
- Each page is threefold: this avoids transcription errors and saves time
- It is made to be inserted in the dispenser in order to verify prescription at the moment of administration

#### PDETI

adhesive label for PDN and PD1 – 100 pcs

#### PD3ETI

adhesive label for PD3 – 100 pcs

#### PD5ETI

adhesive label for PD5 – 100 pcs

#### **VSPD-x**

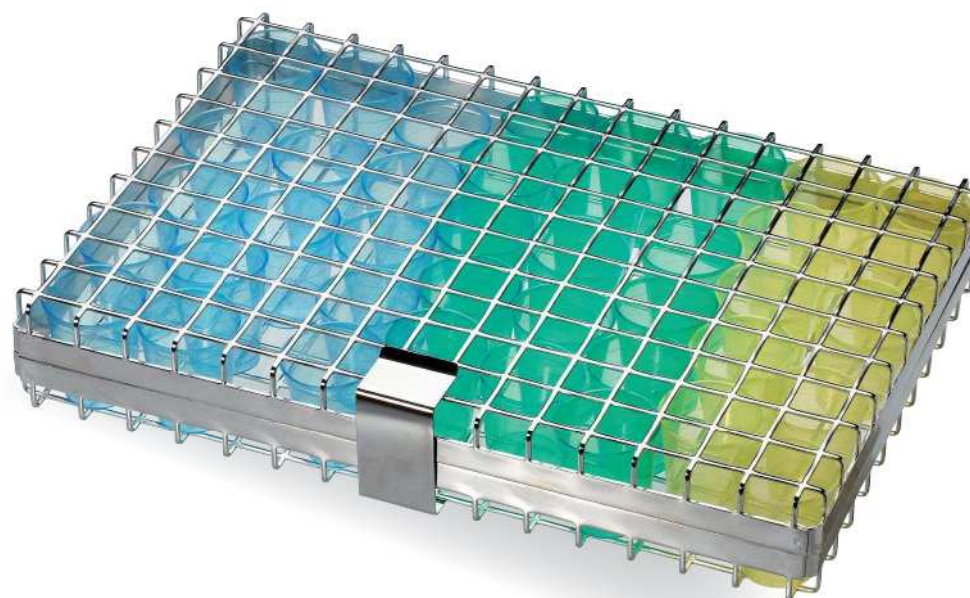

Coloured dividers for PDN dispensers, helping separation of drugs by type through their colours (transparent, yellow, blue and red).

#### **PBI – Cups**

Dedicated to the oral liquid therapy. Cups can be transported by the same tray used for the dispensers. They can easily be identified by writing the patient's name on the lid. The cups have graduation markings and a capacity of 30 ml. In 6 different colours: transparent, yellow, green, red, blue and white.

#### **CES-PBI**

Stainless steel net box to wash the cups in the dishwasher. Capacity: 40 cups

# PERSOFARM

## Trays & weekly systems

### PVA19

holds 19 cups (PBI) and 19 dispensers  
(PDN, PD1, PD3, PD4 and PD5)

### PVA53

holds 53 cups (PBI) and 17 dispensers  
(PDN, PD1, PD3, PD4 and PD5)

These trays can be used for:

- Preparing and organising the daily therapy in an easier way
- Transporting dispensers and cups, by hand or cart, to the point-of-care
- The trays are made of heavy-duty plastic, which is strong and easy to clean thanks to a double and flat bottom.

### Technical specifications
